15 June 1959

MEMORANDUM FOR: Chief, R&D Branch, DPD-DD/P

THROUGH : Acting Chief, Development Projects Division, DD/P *1012*

SUBJECT : Catadioptric Lenses

REFERENCE : Memo for DD/P from Director, PIC dated 9 June 1959, Same Subject. (DD/P 4-6119)

25X1A Herewith is a self-explanatory note from Art Lundahl. This is in response to a query of mine which, in turn, was prompted by an item in [REDACTED] monthly reviews of new ideas in the field of intelligence collection and political action. I feel that this is only one of a number of suggestive ideas that we encountered that should be looked into adequately before they are simply passed by. Accordingly, I would appreciate it if 25X1A [REDACTED] could be asked to make at least a preliminary investigation, which need involve little more than conversation with Messrs. Lundahl, 25X1A [REDACTED] and perhaps one or more individuals in the Air Force, to determine whether this is worth more careful investigation in connection with a GUSTO system. At the same time, I would think it worthwhile to 25X1A get [REDACTED] comments, unless Major Watson can satisfy himself promptly that this is of no possible immediate interest to us.

Attachment: Ref as stated.
